

Lesson I (continued) : Napkin Placement

The host/ hostess will indicate when the meal is to begin and will pick up his/her napkin and place it on his/her lap. Following the host's lead, place your napkin on your lap.

When you are given a large dinner napkin, unfold it just halfway. A helpful hint is to tuck one corner of the napkin under your leg to secure it.

Wait for your host/hostess to begin eating before you begin. If you have not met the guests seated next to you, introduce yourself and keep your table conversation to light and appropriate topics, being certain to talk to the guests on each side of you.
